**Recommendations (optional):** In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

**My Response:** There are many actions that may be taken to improve the overall cybersecurity posture of Botium Toys in order to ensure safety for all users and reduce risk score. I recommend:

- Enforce Least Privilege and Separation of Duties in order to reduce the risk of internal threats having unauthorized access to confidential data.
- Develop Disaster Recovery Plans in order to ensure business continuity and backing up data for minimal loss in times of a security breach
- Update and Enforce Password Policies (at least eight characters, a combination of letters, at least one number, and special characters)

- Develop an Intrusion Detection System (IDS) to monitor network traffic for threats and unusual behavior
- Create a clear schedule for Manual Monitoring, Maintenance, and Intervention for Legacy Systems
- Apply Encryption in order to ensure the confidentiality of customer's PII/SPII and card information
- Create a Password Management System to enforce password policy requirements and enhance productivity for IT department
- Improve on Compliance with Payment Card Industry Data Security Standard (PCI DSS) by making sure only authorized users have access to customer credit card information and to protect their passwords and PII/SPII
- Improve on Compliance with General Data Protection Regulation (GDPR) by ensuring that data is classified and inventoried
- Improve on System and Organizations Controls (SOC type 1, SOC type 2) by establishing user access policies and keeping PII/SPII confidential
